# OUR PILLARS

Our core values guide every aspect of our work and define the way we operate, both internally and in our relationships with our partners and customers.

## RELIABILITY

Our aim is to be a **reference point**, providing high quality services.

## FLEXIBILITY

We strive to respond quickly and adaptably, offering **customised solutions, evolving with the needs of the market** and our partners.

## PROFESSIONAL ETHICS

We operate with **transparency, regulatory compliance.**

## TRANSPARENCY

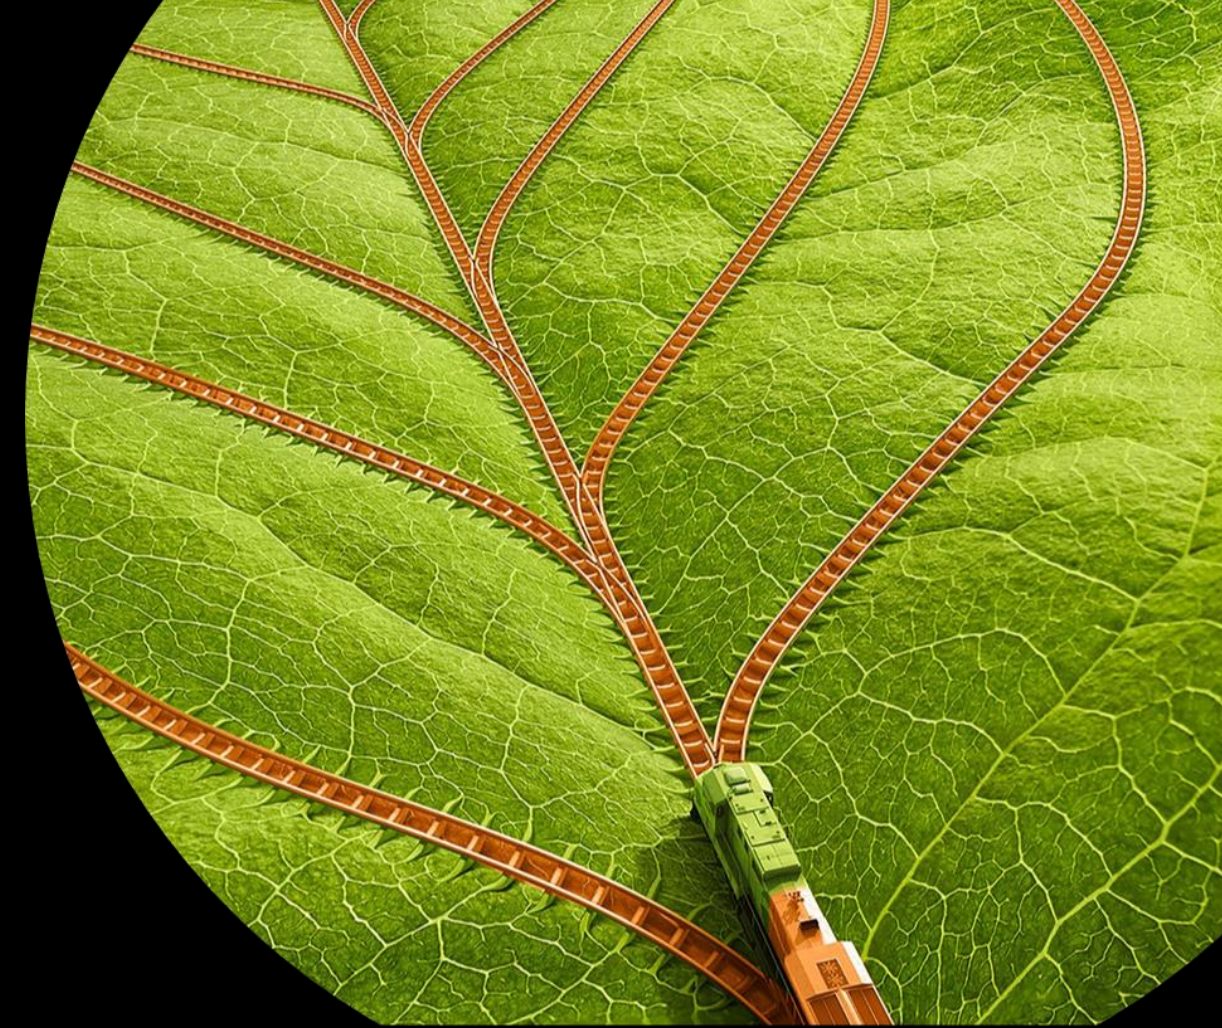

We actively work together, offering **technical and commercial support, ensuring sustainable, long-term growth for all parties involved.**

# VISION

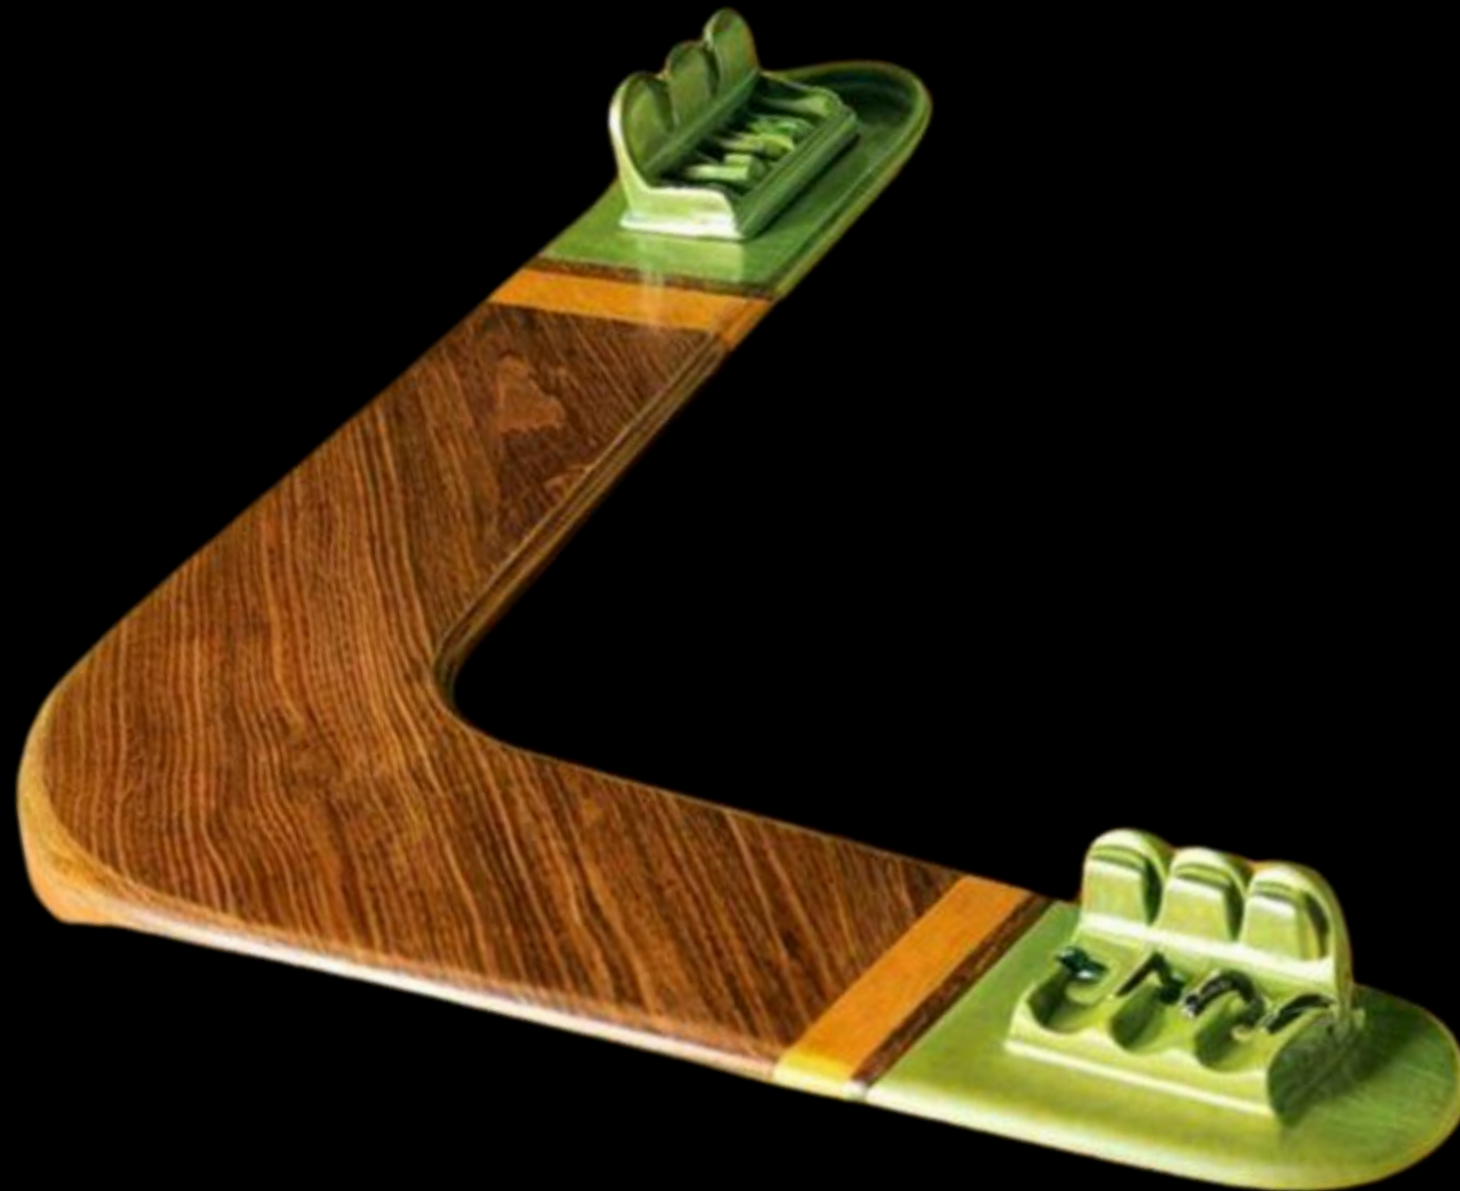

*We want to promote a world powered by energy solutions that respect the environment, improve people's lives and contribute to economic growth in a **renewable** and **sustainable** way.*

# MISSION

*Our mission is to provide **advanced, safe and efficient energy solutions** that put our customers' needs at the centre.*

*We are committed to **promoting** the **adoption of technologies** that reduce environmental impact and improve the well-being of communities.*

# OUR COMMITMENT TO YOU

## CONSULTING

We provide technical and commercial advice based on decades of experience.

## AFTER SALE AND CUSTOMER CARE

At Greensun, we take full responsibility for solutions. Our qualified team is always ready to provide quick and punctual support, guaranteeing comprehensive assistance.

## LOGISTICS SERVICE

We dispatch orders within 48-72h  
We have an established network for distribution throughout Europe.

## GREENSUN APP

The free and intuitive Greensun APP is dedicated to installers, dealers and designers to consult active promotions, product news and regulatory updates.

## TECHNICAL SUPPORT

We support our customers in all phases of the project, from development to implementation, optimization and plant sizing.
